## Note 1

For purposes of brevity, the June 30, 2017, financial information presented here is excerpted from our audited financial statements as prepared by the independent accounting firm of PKF O'Connor Davies, LLP, which rendered an unmodified opinion as to those statements' conformance with generally accepted accounting principles. This excerpted information does not include the Statement of Cash Flows or the footnotes, which are integral to a full presentation of the Collection's financial position. The complete report of the independent auditors is available by writing to the development office of The Frick Collection.

## Note 2: Measure of Operations

Operations include all revenues and expenses that are an integral part of the Frick's programs and supporting activities. The measure of operations includes investment income equal to the 4.5% spending rate (see Note 3) and excludes investment return in excess of, or less than, the spending rate. The measure of operations also excludes permanently restricted contributions; purchase and sale of museum and library collection items; unsolicited, unrestricted contributions of \$40,000 or more (which are designated by the board for long-term investment as funds functioning as endowment); depreciation of property and equipment; pension and postretirement plan adjustments; and releases of net assets from restrictions related to non-operating items.

## Note 3: Spending Rate

The Frick Collection manages its pooled investments on a total return basis. To preserve the investments' long-term purchasing power, the Collection makes available to be spent each year a percentage of the investment portfolio's average market value for the twelve quarters ending the March prior to the beginning of the fiscal year (the spending rate). The spending rate was 4.5% for fiscal years 2017 and 2016. Although long-term in nature, this policy may be modified over time to reflect economic, market, and investment changes.
